*Non-contractual photo – Private Label solution illustration*

## 02 – Product Description

**NorthMed Trading Private Label Olive Oil is intended for professionals seeking to develop and market an olive oil range under their own brand.**

Depending on the project, customer requirements and the capabilities of the selected supplier, different categories, origins, product characteristics, packaging formats and customisation options may be proposed

Private Label projects may include product selection, packaging format, labelling, languages, barcode, secondary packaging and logistics configuration.

**The category, origin, analytical characteristics, packaging and applicable specifications are confirmed for each project and lot through the offer, product specification and corresponding documentation.**

## 03 – Organoleptic Characteristics

| | | | |
|---|---|---|---|
| **Appearance** | Oily liquid, according to category and filtration | **Colour** | Yellow to green, depending on origin, variety and crop year |
| **Aroma** | Characteristic of the category offered | **Taste** | Characteristic of the category offered |
| **Fruitiness** | According to category, origin and lot | **Bitterness** | According to product profile |
| **Pungency** | According to product profile | **Sensory profile** | Compliant with the requirements applicable to the category offered |

## 04 – Physico-Chemical and Organoleptic Characteristics

The applicable specifications depend on the proposed olive oil category. Analytical values are confirmed by the COA of the relevant lot.

| | | | |
|---|---|---|---|
| **Free acidity** | Per applicable category and COA | **Peroxide value** | Per applicable category and COA |
| **K232** | Per applicable category and COA | **K268 or K270** | Per applicable category and COA |
| **ΔK** | Per applicable category and COA | **Sensory criteria** | According to applicable category |
| **Other analytical parameters** | According to category, market and customer specification | | |

Final specifications are confirmed for each offer and lot according to the category, origin and applicable requirements.

## 05 – Composition & Characteristics

| | | |
|---|---|---|
| • 100% olive oil* | • Olives (Olea europaea L.) | • Category according to project |
| • Origin according to supplier | • Packed under customer brand | • Lot Traceability |

** According to the regulatory category and specification of the product selected for the project.*

## 06 – Product Profile

| | | | |
|---|---|---|---|
| **Offer type** | Private Label Olive Oil | **Brand** | Customer brand |
| **Category** | According to project, offer and lot | **Origin** | According to supplier and lot |
| **Organoleptic profile** | According to category, origin and lot | **Filtration** | According to product specification |
| **Packaging** | According to project, format and feasibility | **Traceability** | By lot |
| **Compliance** | Confirmed by lot documentation | | |

## 07 – Recommended Uses

| Segment | Applications |
|---|---|
| **Importers & distributors** | Development of olive oil ranges under customer brands |
| **Retail & specialty food** | Customised ranges intended for retail sale |
| **HORECA & Foodservice** | Professional formats under customer brands |
| **Food brands** | Extension or creation of an olive oil range |
| **E-commerce** | Packed and customised products for online sales |
| **B2B projects** | Development according to market, positioning and customer specifications |

## 08 – Nutritional Information

Nutritional information depends on the category and specification of the selected product. It is provided in accordance with the applicable documentation and the requirements of the destination market.

## 09 – Allergens & Dietary Characteristics

| Characteristic | Status |
|---|---|
| **Allergens requiring declaration** | According to product and supplier documentation |
| **GMO** | Per supplier documentation and applicable requirements |
| **Vegan** | Suitable for a vegan diet |
| **Gluten** | Per supplier documentation |
| **Additives** | According to category and product specification |
| **Organic** | According to project, certification and applicable documentation |

## 10 – Available Packaging

| Solution | Availability |
|---|---|
| **Glass bottles** | According to supplier, format, design and availability |
| **PET bottles** | According to supplier, market and feasibility |
| **Metal tins** | According to supplier, format and availability |
| **Foodservice formats** | According to supplier, volume and project |
| **Secondary packaging** | Cartons and configurations according to project |
| **Other solutions** | Upon assessment according to customer requirements and feasibility |

Formats, materials, capacities, closures and packaging configurations are defined according to the project, supplier capabilities, MOQs and destination market requirements.

## 11 – Customisation Options

| Option | Description |
|---|---|
| **Customer brand** | Packaging and presentation under the customer's brand |
| **Design & labelling** | Adaptation according to brand identity, product and market requirements |
| **Labelling languages** | French, English, German, Arabic, Italian, Spanish or other languages according to market |
| **Barcode** | EAN or customer-specific coding |
| **Secondary packaging** | Cartons and configurations according to project and supplier |
| **Palettisation** | Euro pallet, industrial pallet or export configuration |
| **Formats & closures** | According to selected solution, supplier and feasibility |
| **Other customisations** | Upon assessment according to customer specifications |

Customisation options are assessed according to the selected product, supplier and packing site, MOQs, volumes, destination market and customer requirements.

## 12 – Storage & Shelf-Life Conditions

| Item | Recommendation |
|---|---|
| **Storage conditions** | Store in a clean, cool and dry place |
| **Light** | Protect from light |
| **Heat** | Keep away from heat sources |
| **Packaging** | Keep in the original packaging, properly closed |
| **After opening** | Reseal carefully and protect from light and heat |
| **Best-before date** | Per reference, packaging and lot |

Final storage conditions and the best-before date are confirmed according to the selected product, its packaging and the applicable documentation.

## 13 – Applications / Target Markets

| | |
|---|---|
| **Importers & distributors** | Development and distribution of ranges under customer brands |
| **Retail & specialty food** | Customised products intended for retail channels |
| **HORECA & Foodservice** | Formats and solutions adapted to professional requirements |
| **Food brands** | Creation or extension of an olive oil range |
| **E-commerce** | Customised products intended for online sales channels |
| **Export markets** | Development according to destination, regulations and customer specifications |

## 14 – Quality Criteria

NorthMed Trading develops Private Label projects based on product quality, traceability, documentary compliance and specifications agreed with the customer.

- Category compliance
- Organoleptic control
- Packaging compliance
- Labelling compliance
- Analytical control
- Lot traceability
- Documentary compliance
- Supplier / site qualification

## 15 – Available Documentation

| | | | |
|---|---|---|---|
| **Product Technical Data Sheet** | Available | **Certificate of Analysis (COA)** | Available per lot |
| **Product / lot specification** | According to project and offer | **Traceability documentation** | Per lot / supplier |
| **Certificate of Origin** | Per origin and shipment | **Labelling documentation** | Per project and destination market |
| **Packing List** | Per shipment | **Export documentation** | Per market / customer |
| **Additional documentation** | Per category, market and customer requirements | | |

Applicable documentation is verified according to the project, product, supplier, packing site, origin, category, lot and destination market.

## 16 – Certifications & Standards

Certifications and their scopes vary according to the supplier, site, operator and proposed offer and are verified during supplier qualification.

| | |
|---|---|
| **ISO 22000 / FSSC 22000** | Per certified site / supplier |
| **IFS Food** | Per certified site / supplier |
| **BRCGS Food Safety** | Per certified site / supplier |
| **Organic** | Per project and applicable certified scope |
| **Kosher** | Per supplier and certified scope |
| **Halal** | Per supplier and certified scope |
| **Other standards** | Per supplier, site and certification scope |

**Each project proposed under reference NMT-OO-PL-005 must undergo validation of the product specifications, packaging, labelling, traceability and applicable documentation before production or order confirmation.**

## 17 – Labelling

Labelling information is defined according to the selected product, the Private Label project and the requirements of the destination market. It may notably include:

| | |
|---|---|
| • Regulatory name of the product | • Product category |
| • Origin | • Net quantity / weight |
| • Lot number | • Best-before date, where applicable |
| • Storage conditions | • Responsible operator details |
| • Required regulatory statements | • Brand information |

The final labelling content must be validated according to the product category, its origin, packaging, the responsible operator and the regulatory requirements of the destination market.

## 18 – Commercial Specifications

| | |
|---|---|
| **Incoterms** | EXW, FCA, FOB, CFR, CIF or DAP according to commercial agreement |
| **Country of shipment** | Per origin / offer |
| **MOQ / Minimum order quantity** | Per product, format, customisation and supplier |
| **Lead Time** | Per product, volume, packaging, customisation and logistics |
| **Samples** | On request |
| **Packaging** | According to available formats and project feasibility |
| **Target markets** | Europe, Middle East, Africa, North America and international specialty distribution |
| **Payment Terms** | According to commercial agreement |

## 19 – Disclaimer

This Product Technical Data Sheet describes a general Private Label olive oil development offer and is provided for information purposes only. The category, origin, product characteristics, analytical parameters, packaging, customisation options and supply conditions may vary according to the project, supplier, site, availability and lot.

The characteristics and compliance of the proposed product are confirmed by the specifications and documentation applicable to the relevant project and lot. Certifications, their scopes, as well as packaging and customisation options may vary according to the supplier, site, operator and project.

Final labelling is subject to validation according to the product, packaging, responsible operator and destination market requirements.

Only contractually approved specifications, validated artworks, documents and commercial terms are binding.
